

CARDS: Events in Mary Anning's life

1. Mary found an enormous 'fish lizard' in the rocks when looking with her dog called Tray.

2. Mary survived a lightning strike, when she was just one year old.

3. Mary found fossils on the beach with her father and brother and even sold a few.

4. Her father died when she was only 11 years old.

5. Men carried the enormous 'fish lizard' fossil that Mary had found for all to see. It was a very important discovery.

6. After her father died Mary hunted for fossils and sold them in her shop.

7. Other children teased her when she went out fossil hunting, so she ran home in tears to her Dad.

8. Mary showed the Philpot sisters her collection of curiosities.

9. She became very famous and people remembered what she had done, even after she died.
